Received **Rock Star** (Client award), Cognizant Technology Solutions

Current Project

Title: Deal Manager

Skill Stack: Angular 8, Angular Material, HTML5/CSS3

- Deal Manager is an angular application and it is the new, global Corporate Trust workflow solution developed with the goal to improve the deal life cycle process
- It electronically brings together data and process in one place, improving the user experience.
- Developed functional, smooth, easy-to-operate and eye-catching web pages.
- Created reusable components and integrated various REST API services for CRUD operations.

Previous Projects

Title: GPSF (General Program Support Form)

Skill Stack: Angular 7, HTML5, CSS3, Bootstrap v4.0

- GPSF is an angular application used for signing Sponsorship and Exhibit forms through Adobe eSign.
- Implemented interactive functionalities as per the requirements.

Title: HTA Platform (Health Technology Assessment)

Skill Stack: Fluent UI, SCSS

The HTA Platform acts as a one-stop-shop to help users collect, find, and collaborate on relevant documents and information required for a successful HTA submission, which is a part of local pricing and reimbursement processes, and will happen outside of this platform.

- Designed HTML pages as per VD in the Fluent UI framework.
- Customized the Fluent UI framework with SCSS as per the project need.

Title: Relay Formulary and IMS

Skill Stack: HTML, CSS, AngularJS v1.5.6, Bootstrap v3.3.6

- Relay Formulary is an Intranet application and then provide the ability to easily maintain and changing the database of Formulary Clients across the various Health Care Channels, on a periodic basis.
- Allows user to track the changes in Formularies, Clients, Products and Rates.
- Enhanced the functionalities and page based on requirements.
- Developed code as per the standards defined at project level.

Title: BRR (Business Rules Repository)

Skill Stack: HTML, CSS, AngularJS v1.5.6, Bootstrap v3.3.6

- BRR used to create package and then have some pre-defined rule depends on product, market definition and Sales force.
- Analysed defects & provided the proper UI & functionality fixes.
- Handled multiple CRs for improving the website as needed.
