Vignesh M
Full-Stack Developer

Tamilnadu I 6374733985
vikky1065@gmail.com

❖ 4+ years of experience as a Full stack Developer specializing in developing web applications using MERN, MEAN and Golang backend development

❖ Experienced in developing responsive and adaptive web applications that are cross-browser compatible

❖ Proficient in developing Single Page Applications (SPAs) using HTML, CSS, React and Angular

❖ Proven experience in creating responsive websites and web applications.

❖ Experienced in developing and integrating backend services and APIs using Node.js, Golang

❖ Hands-on relational and non-relational databases, such as MySQL, PostgreSQL, MongoDB, etc.

❖ Knowledgeable in object-oriented programming (OOP) and design patterns

❖ Skilled in troubleshooting, debugging, and optimizing web applications

❖ Proven ability to work in a fast-paced environment and complete projects on time

❖ Proficiency in coding and debugging in multiple operating systems

Professional Experience

Coffeebeans   June 2022 - Present
Full-stack Developer

Tech Stack	**Frontend***:* Angular, Storybook, Typescript, Angular Material, HTML, CSS, TailwindCSS, Docker
	Bakcend: Go, Kafka, Hyperledger Fabric, Mariadb, KeyDB, Kubernetes, Docker, Docker Compose

✓ Solid understanding of client side and server side architecture and its implications on the development of a web application

✓ Ability to work independently or as part of a team to develop a complete web application from scratch

✓ Experienced in developing smart contracts, distributed applications using Hyperleder Fabric

✓ Adapt at leveraging blockchain technologies to create secure and scalable solutions

✓ Indepth understanding of block chain fundamentals and distributed ledger technologies

✓ Experienced in developing distributed applications using Hyperledger Fabric and other distributed ledger technologies

✓ Responsible for designing and developing large scale blockchain application using Hyperledger Fabric

✓ Created Responsive web front end using HTML, CSS, Javascript, Angular, Typescript

CGI   July 2019 - June 2022
Software Engineer

Tech Stack	**Frontend***:* React, Cypress, Typescript, Material UI, HTML, CSS, TailwindCSS, Docker
	Bakcend: Go, Node.js, MSSQL, MongoDB, Docker, Powershell scripting, SQL, Docker

✓ Coordinated Application Management, Deployment, data configuration and, enhancement in the project related to Fuel Cards with business across 34 markets around the globe.

✓ Interacted with the Business Users and the client to support their requirements.

✓ Responsible for creating responsive dashboards, data tables using React, HTML, CSS.

✓ Authored and implemented RESTful API's using Golang and SQL databases

✓ Built web services in Golang

- ✓ Worked closely with other engineering teams to ensure successful deployments
- ✓ Troubleshooted and resolved application issues
- ✓ Implemented best practices for security and scalability of Golang services
- ✓ Developed API endpoints for a wide variety of business requirements, such as user registration, account management, and data retrieval
- ✓ Investigated and resolved reported API issues in a timely manner
- ✓ Assisted with planning and testing of the application, configuration and database changes, installation of upgrades, SQL script writing, patches and update production support documentation.
- ✓ Automated tasks through appropriate tools and scripting. Analyzing user report requirements, functional and technical specifications
- ✓ Provide technical support to junior staff or clients. Developed and maintained archivedprocedures, procedural codes, or queries for applications.
- ✓ Monitor and report systems resource consumption trends to assure production systems meetavailability requirements and hardware enhancements are scheduled appropriately.

Education

B.E in Mechanical Engineering August 2015 - May 2019

KSR Institute for Engineering and Technology at

Namakkal

Key Skills

- ✧ HTML, CSS, TailwindCSS
- ✧ Javascript, Typescript
- ✧ React, Angular
- ✧ Webdriver.io, Playwright, Cypress, Storybook
- ✧ Node.js, Docker, GIT
- ✧ Golang, Kafka
- ✧ Postgres, MSSQL, Mariadb, CockroachDB, KeyDB, Redis, MongoDB
- ✧ Azure, Virtualization, Cloud Networking, Cloud Storage
- ✧ Agile Methodology
- ✧ Linux, Shell Scripting, Make

Certifications

Azure Fundamentals - **Microsoft**

March 2021
